

We are hiring!

Produktmanager Full body CT-Scanner (m/f/d)

About us:

VEC Imaging is the world leader in developing nanotube based multi-beam X-ray (MBX) tubes. We are dedicated to developing, producing and selling the nanotube based X-ray components and control/power electronics for medical and security applications. The combined talent of our Engineers has led to numerous international publications, IP's and patents. As a team we strive to improve healthcare and save lives.

Our vision is to always be forward thinking. We do not follow - We revolutionize! After years of research, VEC Imaging was formed in 2018 as a joint venture between CETTEEN GmbH and Varex Imaging Corporation, who brings 65 years of X-ray tube manufacturing experience to our joint venture. VEC Imaging has both ISO 9001 and ISO 14001 certifications, showing our dedication to quality customer service and products and to enhancing a sustainable society.

Job responsibilities:

- Writing technical documentation for CE/FDA approval of medical devices.
- Writing clinical evaluations for medical devices
- Monitoring of national and international regulations in the field of medical device law
- Project coordination
- Introduction of quality management systems
- Conducting audits (internal, certification, suppliers)
- Preparation of process descriptions, work instructions and checklists (ISO 13485)
- Creation of risk management files
- Carrying out quality inspections / incoming goods inspections
- Processing of complaints, non-conformity reports and CAPAs
- Processing of corrective and preventive actions
- Preparation of quality assurance agreements for suppliers

Your profile:

- a very good degree in business administration, engineering, medical technology or a comparable course of study
- several years of professional experience in project and/or product management of medical software and/or medical devices
- Experience with clinical trials
- Experience in testing medical devices and software
- technical knowledge (ISO 9001 / ISO 13485/ ISO 14971 / IEC 62304 / IEC 60601 / IEC 62366 / MDR / FDA 21 CFR 820 / 510k approval)
- a high degree of customer orientation, strong empathy, communication and teamwork skills
- a high level of analytical competence and a strong entrepreneurial mindset
- an independent and result-oriented way of working
- business fluent in written and spoken German and English
- a high degree of flexibility

What VEC Imaging can offer you:

the opportunity to work with revolutionary technologies
the opportunity to grow and make a difference in an up-and-coming company.
flat hierarchies and short decision-making processes
a modern workplace with state-of-the-art laboratories and collaborative work areas
excellent transport connections, convenient location
parking spaces
