

We're hiring!

Quality Assurance Specialist

About us:

VEC Imaging is a world leader in the development of nanotube-based multi-beam X-ray tubes (MBX). We are dedicated to the development, manufacture and sale of nanotube-based X-ray components and control/power electronics for medical and safety applications. The combined talent of our engineers has led to numerous international publications, IP es and patents. As a team, we strive to improve healthcare and save lives.

Our vision is to always be forward-looking. We do not follow - We revolutionize! After years of research, VEC Imaging was established in 2018 as a joint venture between CETTEEN GmbH and Varex Imaging Corporation, bringing 65 years of X-ray tube manufacturing experience to our joint venture. VEC Imaging holds both ISO 9001 and ISO 14001 certifications, demonstrating our commitment to quality customer service and products and to promoting a sustainable society.

Tasks:

- Lead the quality mindset within the R&D teams, sharing your knowledge of quality assurance principles.
- Observe the design, simulation and production (Nanotube) processes, identify non conformances, unclear processes and work together with the team to resolve the issues.
- Review the QA related documentation of R&D departments and support the development of new documentation or improvement of the current documentation.
- Alert necessary teams of any major non conformances and its impact to project timelines.
- Undertaking internal and external audits. As part of this, ensure that documented evidence is prepared, and available for the Auditor.

Your profile:

- A degree in Engineering, preferably Quality Engineering or a technical background with Quality Assurance experience.
- At least 3 years of experience in Quality Assurance. Experience in the medical industry would be an advantage.
- You have a deep knowledge of the prototype and manufacturing processes, and process development and optimization.
- Knowledge of ISO 9001, ISO 14001 is preferred. Knowledge of ISO 13485 is advantageous.
- You possess excellent interpersonal skills and can effectively work and communicate with multidisciplinary teams.
- You also have the experience of working in a multicultural environment.
- You possess a diplomatic attitude; you respect different perspectives and consider these when coming to a resolution.
- You are open to receiving and giving feedback to build trust, transparency and motivate your colleagues.
- You are able to work in a rapidly changing, reactive business environment.
- Very good German & English skills (QA documents and audits are in English).

What VEC Imaging can offer YOU and whatyou should get to know us:

- * At VEC, you get the opportunity to work with revolutionary technologies.
- * The opportunity to grow and make a difference in an up-and-coming start-up company.
- * A versatile area of responsibility with challenging tasks in a future market of medical technology.
- * Flat hierarchies and short decision-making processes.
- * A modern workplace with state-of-the-art laboratories and collaborative workspaces in beautiful Medical Valley Centre.
- * Working in an international environment with smart colleagues and a good working atmosphere.
- * Excellent transport links, convenient location, parking.
- * We promote work-life balance.
- * Flexible working hours.

- * Permanent position.
- * 30 days vacation.
- * Corporate Events.
